Re: New Inglewood Basketball and Entertainment Center Project AB 987 Application  
(Clearing House Tracking No. 2018021056)

Dear Ms. Gordon:

On behalf of MSG Forum, LLC, we write to request that the Office of Planning and Research provide the public, including all community members, Uplift Inglewood, Inglewood Residence Against Takings and Evictions, NRDC, Climate Resolve, and MSG Forum, with more than seven days to review and comment on the additional application materials the Clippers submitted on November 1 for the Inglewood Basketball and Entertainment Center Project (the "project").

The Clippers' submission includes a new methodology and calculations of GHG emissions and new mitigation measures that appear to try to address the many criticisms raised by MSG Forum, the community and environmental groups. While we have not had an opportunity to review the new materials in any detail, a cursory review indicates that the submission is effectively a new application. As such, it will take time for interested parties to analyze and comment on this material properly.

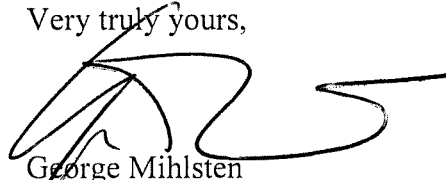

Accordingly, we respectfully request that your office provide the public with 30 days in which to review and comment on the Clippers materials.

We further note that the new submittal references a "joint agreement" with CARB regarding the project's GHG emissions reduction commitment. We respectfully request that the public be provided with any documentation of such "joint agreement" as soon as possible and, at a minimum, before the end of the public comment period.

LATHAM & WATKINS<sup>LLP</sup>

We very much appreciate your attention to this matter. If you have questions, you may reach me at (213) 891-8196.

Very truly yours,

George Muhlsten  
of LATHAM & WATKINS LLP
